# CHINESE RESTAURANT

Turnover rate is an important indicator of a restaurant's profitability. But the higher the turnover rate, the higher the risk of breakage of tableware. LIBBEY's DuraTuff technology and world-leading one-piece process of wine glass can significantly improve the product's robustness and effectively reduce the breakage caused by table turnover and tableware cleaning during the operation. Less breakage means more profit.

# RESERVE

BY LIBBEY

For the mavericks who are making their mark and the innovators who are anything but ordinary, RESERVE BY LIBBEY is luxury made to last.

- We've pushed the ingenuity of America's Glassmaker beyond world-class levels to build a full tabletop that's both beautiful and durable.
- These collections combine form and function to entice the senses, enhance the experience and elevate what's possible.
- RESERVE BY LIBBEY is the fullest expression of our living legacy - crafted with care to bring your creative vision to stunning life.

Our premium RESERVE BY LIBBEY glassware collection represents the pinnacle of LIBBEY craftsmanship, with superior, color-free optical purity, precise balance and enduring performance.

The beauty of RESERVE is all in the details - stemware with exquisitely thin walls and flat feet, plus rocks and tumblers with thick bases and windowpane clarity. Our fine HD2 laser-cut rims - smoothed and perfected with a kiss of fire - enhance the drinking experience and offer visual appeal that guests will notice.

#### WHISPER THIN BEADLESS EDGE

The exclusive HD2 rim offers high definition and high durability with a deep Dura Temp treatment for longer service life.

#### STRONG SLENDER WALLS

Stiffening provides mechanical strength to exquisitely slim side walls.

#### SEAMLESS BOWL AND STEM

The seamless transition creates a sleek, provocative look while dramatically enhancing service life.

#### TALL SVELTE STEMS

Eliminating seams and joints in the stems provides longer life and more torque (twist) resistance.

#### UNPRECEDENTED FOOT FLATNESS

Elegant thin flat foot that reduces overall weight while enhancing the glass aesthetic.

#### PURELY RADIANT SHINE

High brilliance soda lime sparkles without potentially harmful metals.

Colorless glass and exceptional brightness let the natural colors of the beverage shine through.

With dynamic angles and bold energy, Prism possesses a whimsical sense of spontaneity that's uncommon in luxury glassware — and impossible to ignore.

### Light-Bodied Red Wines

No. 3957 shown

For these wines with fewer tannins and more subtle flavor, a large bowl and wide mouth allow the wine to breathe, enhancing delicate flavors.

Pair with Beaujolais, Pinot Noir, Sangiovese, Cabernet Franc

### Full- and Medium-Bodied Red Wines

No. 3060 shown

These have the highest tannins resulting in complex flavors. A tall bowl directs the wine to the back of the palate for a richer tasting experience.

Pair with Bordeaux, Cabernet Sauvignon, Merlot, Malbec, Shiraz, Syrah

### Light- and Medium-Bodied White Wines

No. 3050 shown

Perfect for lighter, more delicate white wines with less alcohol. A smaller bowl concentrates subtle aromas and directs the wine to the tip of the tongue for better appreciation of sweeter flavors.

Pair with Riesling, Moscato, Pinot Grigio, Pinot Gris, Petit Chablis

### Full-Bodied White Wines

No. 3048 shown

For heavier wines with a fuller body, a wide bowl enhances complex aromas while directing the wine to the back of the tongue, heightening flavor intensity.

Pair with Chardonnay, Sauvignon Blanc, Gewürtztraminer, White Zinfandel

### Champagne and Sparkling Wines

No. 3796 shown

A tall, narrow glass maintains flavor concentration and displays effervescence, enhancing presentation.

Pair with Champagne, Prosecco, Lambrusco

### Dessert Wines

No. 3964 shown

A smaller glass enables proper portioning of these higher alcohol wines. A rounded bowl directs the wine to the back of the mouth, perfecting the sweetness.

Pair with ice wine, Sauternes, Moscato

## SEQUOIA

The new Sequoia Series has a robust and elegant design concept. The center of gravity has been shifted downward, creates more space to display the appealing beverages.

The multi-functional design is also suitable for juice, soft drinks and beer.

## TEARDROP

The streamlined design with teardrop shaped bowl established its irreplaceable position among all wine glasses.

It is always quietly brilliant, classic and meaningful.

## COPA

COPA, LIBBEY's breakthrough collection in Asia and Pacific region! From wine glasses, to brandy glasses, to champagne glasses, COPA's classic shapes are designed to accommodate a wide range of wines for celebratory occasions.

### How to Make Glassware Perform Better in Restaurant Operations

Glassware is most prone to breakage. Focusing on the food service area, LIBBEY is committed to improving product design and upgrading the production process of glassware to provide strong, durable and high-quality glassware for restaurant operators.

## TUMBLERS & BARWARE

Steaming hot dishwashers. Ice cold beverages. Daily handling by servers or busy staff and stacking by bartenders. If your glassware isn't made to hold up, breakage and chipping from everyday abuse can drive up replacement costs and operational expenses.

LIBBEY's exclusive Dura Tuff treatment increases resistance to thermal shock (sudden temperature change) and mechanical impact (sudden impact with another object).

We even engineer some of our glasses specifically for stacking, saving space and reducing breakage.

# L'ESPRIT DU VIN SILKROAD

Inspired by the meaningful Eastern symbols: the silk road and auspicious clouds, the brandnew series-L'ESPRIT DU VIN SILKROAD is a disruptive combination of modern aesthetics and pragmatism.

Whether you're holding a spirit or a drink, it's no doubt a refreshing experience.

CHICAGO

The Chicago Collection, a classic blown series of LIBBEY brand. The simple straight design brings out the best of American modernism, just like the atmosphere that the city of Chicago brings.

# LEXINGTON

The Lexington series, another masterpiece of LIBBEY blown product line.

With precise control of the thickness of the glass and the bottom, we create it with lightweight but never sacrifice robustness and durability.

RESTAURANT BASICS   

# RESTAURANT BASICS

Mixing glass specially developed for restaurant or bar, with simple overall contour, perfect tilt, easy for bartenders to hold and shake.

The thickness and strength of the glass are scientifically reserved to effectively withstand the impact and flip when bartending.

# GIBRALTAR

Gibraltar Series, the texture is inspired by the Mediterranean architecture of Gibraltar arch design, classic and artistic.

With thickened body and reinforced top, the glass is tough and durable, welcomed by each format in the catering industry for decades.

STACKING PANNELLO

The rows of outer stripes, plus waist design, make the pattern of the glass like a flowing creek. The stackable design saves storage space and allows for a perfect blend of pragmatism and artistic design.

# BROOKLYN

Brooklyn's innovative multi-ribbed vintage styling provides a refreshing feel in hand. The special flared open mouth, leaves more space to display a richly layered drinking.

The stackable design allows easy access, saving space in restaurants and bars.

# KICKS BEER GLASS

What is the soulmate of soccer? Beer!

The LIBBEY Kicks Beer Glass, with its vivid football shape at the bottom and its long and straight body, makes beer drinking as passionate and magic as a soccer game.

### Spirits Served Neat

**No. 1072B1 shown**

A rounded design with heavy base is perfect for swirling “neat” drinks – unmixed spirits served at room temperature – to open up the flavors. The glass narrows at the top to concentrate and enhance the complex aromas.

### Spirits Served On the Rocks

**No. 15710 shown**

The heavy weight and wide top are perfect for serving the finest spirits on the rocks, the large capacity allowing ample room for ice.

### Brandy/Cognac

**No. 3705 shown**

A wide bowl creates surface area to help evaporate the liquor and enhance flavor. The narrow top concentrates aromas, and the rounded bottom is ideal for cupping with your hand to warm the brandy.

### Martini

**No. 3733 shown**

A very wide bowl allows for maximum aromatics (especially the juniper and botanicals in a gin martini). The glass can be held by the stem to prevent warming, and the cone shape keeps ingredients from separating.

### Margarita

**No. 3029 shown**

A Mexican cocktail made from tequila, orange liqueur and lime juice, margaritas are often rimmed with salt. The stem helps prevent warming the drink, and the very wide top enables an optimal salt-to-drink ratio.

### Highball or Collins

**No. 2345 shown**

This family of cocktails is made with a base spirit and a non-alcoholic carbonated mixer served with ice, requiring a tall glass for proper proportioning of ingredients.

### Specialty Glassware

**No. 3840 shown**

Whether it's a signature mojito, frozen cocktail or premium Long Island Iced Tea, specialty glassware is designed to create a powerful presentation of the finest signature cocktails.

### How to make specialty drinks stand out in bar operations?

As the atmosphere of bars and nightclubs, special drinks such as cocktails, margaritas and liqueurs are the protagonists. The Libbey specialty glass series provides a wide range of glass types to meet the differentiated presentation needs of various types of special drinks.

## AFTER DINNER

LIBBEY's array of glassware will help create eye-catching presentations that ensure your after-dinner menu options are not just an afterthought for guests.

Whether it's for a steaming cup of their favorite coffee or a decadent sweet treat, you'll increase the likelihood that they'll always "save enough room."

# WARM BEVERAGE

LIBBEY Warm Beverage Series, with wider lug design, make hot drinks easy for customers to hold and drink.

The high-transparency glass body allows for an unobstructed view of both the scented tea or a cup of cocoa beverage inside.

## SERVINGWARE & ACCESSORIES

Most of your guests take for granted how accessories provide the little touches that create just the right atmosphere, be it casual or elegant, or a little of both.

Serving plates. Carafes. Pitchers. Salt shakers. These are the everyday essentials that complete your tabletop vision. Sure, they all have a job to do. But their primary role is to coordinate beautifully as part of a complete tablescape while providing functionality and durability.

# STACKABLE CONTAINER

For restaurants to present unique ingredients, or cafes to showcase top quality beans, LIBBEY stackable container are fully utilized in different scenarios.

The airtight design allows for easy storage and prevents mixing of flavors; it can be stacked to save space and make the presentation more imposing as part of the restaurant decoration.

## Handling Glassware For Safety And Profitability

One of most important merchandising tools used by the owner or operator to present meals and beverages to guests is proper glassware. To maintain the life of this investment, it needs to be treated and handled carefully. Improved handling means less breakage and damage, which translates into higher productivity and lower incidences of injury accidents. The tips included in this guide are designed to improve handling of glassware by reducing the most common causes of damage-mechanical shock and thermal shock.

### 1. Thermal Shock

Thermal shock is the result of glass experiencing a sudden temperature change. Glass holds temperature, and rapid change in temperature can cause enough stress to result in breakage. For example, a glass that has held ice cannot go directly into the dishwasher; a glass warm from the dishwasher should not go directly into service; and cold water or ice should not be put into a warm or hot glass or cup. In all cases, the glass needs to reach room temperature before being taken to the other extreme, and the thicker or heavier the item, the more time is needed. Cracks that result from thermal shock usually form around abrasions caused by mechanical impact, increasing the chances of breakage.

### 2. Mechanical Shock

Mechanical shock in glassware is the direct result of contact with another object, such as a spoon, a beer tap, another glass, or a piece of china. This kind of contact can cause a minute abrasion, invisible to the eye, but a source of weakness in the glass, making it more susceptible to breakage from impact or thermal shock.

When cleaning and wiping the stemware, please hold the bowl instead of twist the leg with force to avoid breaking.

### General Handling

- Keep adequate supplies of glassware in order to prevent recently washed items from going directly into service.
- Place guides on scrap tables for busboys to place glass, china, and flatware in separate areas.
- Check dishwasher temperature twice daily.
- Replace worn glass washer brushes.
- Instruct busboys to BE QUIET. No one wants to eat in a noisy place. This will cut down on breakage of glassware, as well as help create a pleasant, quiet atmosphere.
- Never put cold water or ice into a warm or hot glass.
- Bus glassware directly into racks, or use divided bus trays with flatware baskets.
- Color code racks for different glass, china, and flatware items.
- Remove severely abraded glass from service.
